

User Manual: Matrimony Video Generator

1. Overview

This tool automates the creation of marketing videos for your matrimonial profiles. You simply upload an Excel file, and the system generates a branded, 1024x1024 MP4 video for each profile, complete with background music and transitions.

2. How to Prepare Your Excel Files

The system accepts two types of Excel files. Please ensure your columns match these examples exactly.

Format 1: URL Mode (Automatic)

Use this if you want the system to scrape data from your website automatically.

Column A	Column B
Profile url	Background music URL
<code>https://www.freeindianmatrimony.com/10500/</code>	<code>https://example.com/music.mp3</code>
<code>https://www.freeindianmatrimony.com/10441/</code>	<code>https://example.com/music2.mp3</code>

- **Profile url:** The link to the specific profile page.
- **Background music URL:** A direct link to an MP3 file.

Format 2: Data Mode (Manual)

Use this if you want to provide specific text and photos directly, bypassing the website.

Column Name	Description	Example
Profile Name	Name of the candidate	Riddhima Malhotra
Age	Age in years	28
Gender	Male or Female	Female
Marital Status	e.g., Never Married	Never Married
Religion	Religion/Community	Hindu
Mother Tongue	Native Language	Hindi
Country	Location	Mumbai, India
Education	Degree/Field	Masters in Management
Occupation	Job Title	Consultant
Profile description	"About Me" text	Modern, beautiful soul...
Photos URL	Link to their photo	<code>https://site.com/photo.jpg</code>

Background music URL Link to MP3

`https://site.com/music.mp3`

3. How to Generate Videos

1. **Open the Application:** Navigate to the web address provided by your administrator (e.g., `http://your-site.com`).
2. **Upload:** Click the "Choose File" button and select your prepared Excel file (`.xlsx`).
3. **Start:** Click the blue "**Generate Videos**" button.
4. **Wait:** You will see a "Processing..." status screen. The system is creating the videos in the background.
 - *Note: Each video takes about 20-30 seconds to generate.*
5. **Download:** Once finished, the screen will turn green. Click "**Download .zip File**" to save all your videos at once.
